ALBANY.

Means Great Mortality.

Elecutionist Taken In-Stock Subscribed for a Merchants' Mill - Staking Off Texas Central Lands,

Correspondence of the Gazette.

ALBANY, TEX., Dec. 7 .- Notwithstanding the open winter and dry atmosphere, we understand from a reliable source that cattle are not doing as well as could be expected from the promising prospects is give and doing business at the in the fall. In some sections they are old stand, notwithstanding the reports of In the fall. In some sections they are already dying. It seems that the season was too dry. Grass matured early and did not receive sufficient rains to give a good winter range. Water is very scarce in Haskell, Knox and other counties west and northwest, and if it continues dry great mortality is expected along the dry streams where cattle will mire and "bog in this association are open for the inspection of all Masons and members of this association are open for the inspection of all Masons and members of this association. up" while scatching for water. There is association. Our membership is increasing that the trouble to watch the results, and that is, Texas native cattle cannot be successfully and profitably raised in pastures without any provender except the mesquite grass on the range. The nature of our native cattle will not permit them to be confined to the limits of a pasture during the winter months. If they are not allowed to drift with the north wind, artificial wind breaks must be made to protect them, and feed stored for their consumption during storms. It will not take long for the cattlemen to find out that there will be more profit is cutting up large pastures into smaller bodies and raising fewer and better cattle by feeding them for market, instead of grazing during the winter

The approaching Ciristmas festivities are foreshadowed by the large display of toys in the show windows, and the prepa

badger. The frontier seems to have a cred fatal.

A 8500 Boy.

Salam, Ill., Dec. 7.—Deputy Sheriff Cumningham arrived home to-day from Springfield, Mo., having in charge Master Everett Almon, about whom there has n some Ittigation. Last February C L. Almon was granted a divorce from his wife, Mary V. Almon. Subsequently she went to Missouri, taking with her the 7-year old boy Everett, who had been given by the court into the keeping of the father. The woman refused to give up the boy until Almon paid her \$500 which the court had allowed her as allowed. Sheriff Telford went to Springfield and got out a writ of habeas corpus for the child, but a stay of five days was granted and the sheriff returned bome and sent Deputy Cunningham to attend to the matter, which was finally compromised by Almen paying over to the woman \$650 in order to get her to relinquish her possession of the boy. The woman then refused to allow the fee the Hon. H. C. Goodnow as counsel to be sunk taken out of the \$500, and a suit in attachment will likely be brought to re-

Thousands Say So. Mr. T. W. Atains, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers; they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known, and will postlively cure kidney and liver complaints, purify the blood and regulate the bowels, No family can afford to be without them will save hundreds of dollars in

Washington Territory Returned to British Columbia.

SHATTLE, W. T., Dec. 7 .- The dispute egarding the disposition of twenty-nive ila was brought to a close yesterday by summary action on the part of the United cates authorities. The case has excited able attention. It will be remembered that these Chinamen were found some nouths ago on a rock in the straits of oca, where they had been abandoned by e master of a schooner, who had been tempting to sangule them into the clad States. They were brought be-Fe the United States commissioner, and De Distabilities ordered to escort tem back to British Columbia.

last they were brought before the United States court here, and Judge Green in-structed United States Marshai George to Cattle Beginning the Winter in Bad escort them across the boundary line and leave them in British Columbia without regard to the protest of the British Columbian authorities. Marshal George Stand True. accordingly took them to Sezuahmoo, town near the boundary line, and then escented them across the line and two miles into Causdian territory. They were turned loose there, having previously been supplied with provisions for several days. The heathens started at once for Notes of Interest. New Westminster, having no desire to return to the United States.

> Fore Worrn, Tex., Dec. 7, 1885—To the Masons of Texas: We wish to enform you that the Masonic Muteal Benevolent Association of Texas patronage. Respectfully and fraternally yours, W. L. Hollt, Secretary.

young wife and "gone West to grow up with the country," and if the country don't grow up and leave him the other don't grow up and leave him the o

ing their ill fortune. For weary months they had worked the mine without getting more than a bare living. At length they decided to leave the spot, though not without regret. Three of them were in the mine taking a last look around, when one said to his mates, "Good-by: I'll give you a farewell blow," and with that his pick sent the splinters of quartz in all quarters. His trained eye spied a glitter on one of the bits that landed at his feet. He picked it up, examined it, and found it to be gold. He at once proceeded to work with a will. His chums saw that something out of the common had hap-pened, and they, too, piled their picks vigorously. With si'ent resolve they worked on until they unearthed a big nugget. Then a fierce, glad yell of joy reached the ears of the fourth man at the windless at the mine top. "What's the the matter?" he shouted down. "Wind up," was the reply; and when he did so the lump of pure gold met his gaze. They call it "The Welcome," and obtained \$30,000 for it. They claim where the nugget was got is now covered with the one streets of the thriving town of Bal-
